

Greenwood Energy opens additional offices in Connecticut, Panama and Chile to further expand its presence in key growth markets

NEW YORK: May 14th, 2014- Greenwood Energy, the North American clean energy division of the Libra Group, has opened new offices in North and South America to continue its expansion in key growth markets. The new regional hubs are in Wilton Connecticut; Santiago, Chile and in the heart of Panama City, Panama.

“This office expansion in Connecticut, Panama and Chile comes as a result of our solar project pipeline growth, especially in Latin America.” explained Camilo Patrignani, CEO of Greenwood Energy. “We are placing a strong bet but having a local presence is critical” continued Mr. Patrignani.

Greenwood Energy has been developing, constructing and investing in clean and renewable energy projects since 2010. The company is involved in renewable fuels manufacturing, clean energy generation and solar project construction.

About Greenwood Energy

Greenwood Energy (www.gwenergy.com) is the North and Latin American clean energy division of the Libra Group (www.libra.com), a privately owned international business group comprising 30 subsidiaries operating across five continents. Greenwood’s clean energy interests span the manufacture of sustainable fuels that replace coal; ownership of clean power generation plants such as fuel cell and combined heat and power (CHP); solar energy investment and development; and engineering, procurement, and construction (EPC) services for the solar sector. The Libra Group is predominantly focused on five core sectors: shipping, aviation, real estate, hospitality and energy. In addition to Greenwood's clean energy interests in the Americas, Libra Group companies own and operate solar farms, wind parks, and biogas facilities throughout the Mediterranean and Northern Europe.
